April 1, 2025

Часовая фабрика «Ракета», базирующаяся в Санкт-Петербурге, на берегу Балтийского моря, уже более полувека создаёт часы для моряков, подводников и дайверов. Сейчас бренд представляет новую версию своей модели для дайверов — Amphibia.

Сохраняя дух и индивидуальность своих предшественников, эта модель теперь соответствует всем современным требованиям к дайвингу как с точки зрения дизайна, так и с точки зрения функциональности.

Case made from stainless steel and capable of withstanding pressures at 200 metres depth.

A screw-in crown securing the movement from any water entry.

A unidirectional bezel with a 15-minute scale and luminescent indexes, producing clear clicking sound for error-free adjustment with no risk of accidental misalignment. The start marker is embossed as part of a functional design.

A high-contrast dial with large indexes and hands, easy to read and enhancing dive control. The luminescent coating ensures a bright and long-lasting glow. At greater depths, where visibility is often low and light conditions vary, orange stands out more effectively than any other color because its wavelength is less absorbed by water.

A brightly colored silicone strap crafted for comfort in aquatic environments: with its full-length perforations, you may adjust the size for a snug fit with your wetsuit and prevent water build-up beneath the strap. A second strap in black silicone is included, and swapping is easy with a quick-release system.

The heart of Raketa Amphibia is its automatic movement, manufactured from A to Z at the Raketa Watch Factory in St. Petersburg. The movement's rotor is adorned with an image of a mermaid designed in the style of illustrations from Russian fairy tales.

TECHNICAL SPECIFICATIONS

- Calibre: 2615
- Functions: Automatic
- Number of jewels: 24

- Testing positions: 4
- Average rate (s/d): -10+20
- Average running time (h): 40
- Frequency/hour: 18.000 / 2.5 Hz
- Decoration: Printing
- Case material: Stainless steel
- Case size: 41.6 mm
- Dial glass: Sapphire
- Back glass: Sapphire
- Water resistance: 20 ATM
- Bezel: Superluminova
- Hands: Superluminova
- Dial: Superluminova
- Strap Material: Silicone
- Strap width: 22 mm
- Price: 2,000 euros (including VAT)
