

RAKETA “RUSSIAN CODE”

OCTOBER 2019

The Raketa “Russian Code” watch underlines the link between Raketa and space: the Raketa brand was created in 1961 in honour of the first manned flight in space by Yuri Gagarin (Raketa means “Space Rocket” in Russian). Since then, the engineers and designers of Raketa were always inspired by space.

Raketa Russian Code watch

The automatic movement of the Raketa “Russian Code” watch has 2 more oddities:

- ▶ if you wind-up the movement manually, it is necessary to turn the crown towards you (i.e. contrary to the usual direction);
- ▶ when you set the time, it is necessary to turn the hands counterclockwise.
